

Time Machine Collection

Check this out ! High quality tortoiseshell patterned pickguards just like Fender's coveted early 60s guards. Montreux Torlam guards are manufactured in Japan using proprietary techniques to be the most accurate reproductions that money can buy of Fender's hugely popular tortoiseshell guards introduced in the late 50s. Several years of research went into making these guards, which are available in six different configurations of tortoise pattern and color to compliment any guitar. Montreux Torlam guards are hand made of top grade modern materials for stability. Give your guitar new life with Montreux Torlam!
